ELECTION 2015: WHAT'S AT STAKE FOR THE ECONOMY?

6:30PM | THURSDAY 26 FEBRUARY

UNISON WEST MIDLANDS, 24 LIVERY STREET,
BIRMINGHAM, B3 2PA

With the General Election just weeks away, the debate about how we get fairness and greater equality in Britain is more urgent than ever. Our Birmingham event will see the publication of a new Class election guide looking at the economic priorities we need for a sustainable and fairer future and showing where the parties stand on the economy.

The event will highlight the untold harm and misery the Government's austerity policies have caused drawing on both local and national expertise and will look at what's at stake at the General Election. Economic policy needs to be about far more than just debt and deficit. This event will debate what policies are required to tackle the root causes of inequality and create a sustainable economy that works for everyone and not just a very few.
